Professional Profile

I'm very passionate about Technology and thoroughly enjoy coding, i've not had the best academic experience however i am dedicated to getting my foot in the doorway and working hard to achieve a good career.

my ideal career pathway would be Software development, I very much enjoy solving problems and issues that arise when coding and I'm fascinated with the idea of manipulating computer devices via code. Other than Software development I am also looking for other opportunities that could kickstart my career.
